Understanding the 24-Hour American Airlines Cancellation Policy

American Airlines allows passengers to **cancel a ticket within 24 hours of purchase** and receive a **full refund** as long as the booking was made **at least two days before the scheduled departure**. This applies to **all fare types**, including non-refundable and Basic Economy tickets.

In simple terms:

If you bought a ticket today and your flight departs in more than 48 hours, you can cancel your reservation within the next 24 hours and get your money back in full.

This policy was designed to give travelers flexibility and confidence when booking online, by phone, or through an agent. Why the 24-Hour Rule Exists

The **U.S. Department of Transportation (DOT)** requires all airlines operating in the United States to provide customers with either:

- A 24-hour hold option, or
- A full refund for cancellations made within 24 hours of purchase, as long as the booking was made at least seven days before departure.

American Airlines aligns with this federal policy but extends it slightly differently — allowing full refunds if canceled within 24 hours, provided the flight is at least **two days away**.

This rule offers travelers peace of mind. It means you can book a flight while you finalize plans, compare fares, or verify travel documents without the fear of being locked into a purchase.

To qualify for a full refund under American Airlines' 24-hour cancellation policy, your booking must meet these conditions:

1. **The ticket was purchased directly from American Airlines** (via aa.com, mobile app, phone, or ticket counter).
2. **The booking was made at least two days before the scheduled departure.**
3. **Cancellation occurs within 24 hours of purchase.**
4. **The ticket has not yet been used** (no segment flown).
5. **Payment was successfully processed** (some pending credit card transactions may require confirmation before refund issuance).

If you booked through a **third-party travel site or agency**, you should contact that service directly — as American Airlines can only process refunds for tickets purchased through its official channels.
