About the Project

Purpose: The purpose of this project are to reduce basement backups and sewer overflows by removing excess stormwater from the wastewater sewer. The project will also reduce the amount of water requiring treatment, resulting in lower treatment costs.

Project Description: Constructing 1,726 lineal feet of 6-inch to 15-inch diameter sanitary sewer. See map on reverse for location.

Project Schedule:

Complete Design:	Fall 2020
Complete Easement Acquisition:	Fall 2021
Begin Construction:	Spring 2022
Construction Duration:	1 year or less

For questions, contact
David Hasty at
(314) 800-5716
and mention the
project's number: 12272.

What You Can Expect

Once work begins, you can expect:

- The presence of work crews, construction materials, and equipment;
- Excavations that provide access to the sewer system; and
- Temporary disruptions to traffic, driveway access, and on-street parking close to the job site.

As each phase of work is completed, the project area will be fully restored to pre-construction conditions.
