RE: Property at «ADDRESS»

Dear «OWNER_NAME»:

The Metropolitan St. Louis Sewer District has engaged the services of Burns & McDonnell to design improvements for the project titled *West Lockwood Sanitary Relief* (MSD Project Number 11679). The project is located within the Deer Creek Watershed in the Lemay Service Area in Webster Groves. The project area is generally located in an area north of Interstate 44 and west of S Rock Hill Rd. The project scope of work includes the construction of approximately 3,310 linear feet of 8-inch to 24-inch diameter sanitary sewers to eliminate two (2) constructed Sanitary Sewer Overflow (SSO) outfalls and one (1) capacity related known SSO. An informative brochure with additional information has been attached.

A neighborhood meeting will be held Thursday, June 6, 2019 at 5:00 pm at the Webster Groves Public Library at 301 E. Lockwood Ave., Webster Groves, MO 63119. An overview of the project will be provided to meeting attendees, and you will have an opportunity to review the project plans. Representatives from the Metropolitan St. Louis Sewer District and Burns & McDonnell will be on hand to take your comments and answer questions that you may have regarding the proposed project improvements.

If there are any questions about this meeting, please feel free to contact Shawn Singer with Burns & McDonnell at (314) 336-6330 or sjsinger@burnsmcd.com.

Sincerely,

A handwritten signature in black ink that reads 'Jeffrey M. Smith'.

Jeffrey M. Smith, P.E.
MSD Project Manager, Engineering Department/Design Division
