

May 2022

Dear Resident:

The Metropolitan St. Louis Sewer District (MSD) works to protect the public health and environment through effective wastewater and stormwater management. As part of MSD Project Clear, a long-term effort to reduce basement backups and sewer overflows, MSD is planning a construction project in your neighborhood: Schuetz Road Sanitary Relief (Forestbrook Lane to Sunny Wood Court) (#10161).

### You're Invited to a Virtual Public Meeting

MSD Project Clear invites you to attend a Zoom virtual public meeting on Wednesday, May 25 at 6:00 p.m. to learn more about the project, meet the Design team, and let us answer any questions you may have. We look forward to a good discussion, and we wanted to provide some tips for navigating this virtual meeting.

First, you don't need to download anything or install an app or even have an internet connection to participate. You can log in from a desktop, handheld device, or even your landline phone.

The best way to participate in the meeting is through a desktop computer or tablet, as you'll be able to see our slides and presenters and type in questions during the meeting. **Registration is required** to participate through a computer or tablet. To register, visit [msdprojectclear.org/SchuetzReg](https://msdprojectclear.org/SchuetzReg). Once you register, you will be sent the meeting link and further instructions on how to attend. If you register with your email, you will also get a reminder sent to you the day before the meeting.

If dialing in by phone, call this number: 312-626-6799 and when prompted, enter the webinar ID: 856 7472 0656 and password: 006268. Participants using the dial in option will not be able to submit questions during the meeting, however, we invite you to send questions to us via our website at [msdprojectclear.org/Schuetz10161](https://msdprojectclear.org/Schuetz10161). We look forward to "seeing" you all on May 25 at 6:00!

### A Clear Solution

MSD Project Clear planners and engineers have designed a new project called Schuetz Road Sanitary Relief (#10161). This project will help reduce basement backups by increasing the size of the sewer in your neighborhood.

Find additional information on the project at [msdprojectclear.org/Schuetz10161](https://msdprojectclear.org/Schuetz10161). We appreciate your cooperation as we work together to improve water quality and reduce basement backups in your neighborhood.

Sincerely,

Chuck McFarland  
MSD Project Manager  
Engineering Department
