

May, 2022

Dear Resident:

The Metropolitan St. Louis Sewer District (MSD) works to protect the public health and environment through effective wastewater and stormwater management. As part of MSD Project Clear, a long-term effort to reduce basement backups and sewer overflows, MSD is planning a construction project in your neighborhood: **Louisville and Oakland Sewer Relief (12741)**.

You're Invited to a Virtual Public Meeting

MSD Project Clear invites you to attend a virtual public meeting on Tuesday, June 14 to learn more about the Louisville and Oakland (12741) project, meet the construction team, and let us answer any questions you may have. We look forward to a good discussion, and we wanted to provide some tips for navigating this virtual meeting.

First, you don't need to download anything or install an app or even have an internet connection to participate. You can log in from a desktop, handheld device, or even your landline phone.

The best way to participate in the meeting is through a desktop computer or tablet, as you'll be able to see our slides and presenters, type in questions during the meeting, and respond to poll questions in real time.

Registration is required to participate through a computer or tablet. To register, visit www.msdproujctclear.org/LouisvilleMtg.

If dialing in by phone, call this number: 888-475-4499 and when prompted, enter the **webinar ID: 813 1810 2594** and **password: 055895**. Unfortunately, the Zoom platform does not have local St. Louis dial in numbers. Participants using the dial in option will not be able to submit questions during the meeting, however, we invite you to send questions to us via the contact us page on our website at MSDProjectClear.org/Louisville. We look forward to "seeing" you all June 14 at 6:00 p.m.!

A Clear Solution

MSD Project Clear planners and engineers have designed a new project called Louisville and Oakland Sewer Relief (12741). This project will help reduce basement backups and alleviate sewer overflows.

Additional information on the project can be found in the attached project fact sheet or by visiting MSDProjectClear.org/Louisville. We appreciate your cooperation as we work together to reduce basement backups and improve water quality in your neighborhood.

Sincerely,

Mark Dietiker
MSD Project Manager, Engineering Department
