# Project Overview

- General Goal
  - Increase the capacity of the sewer in this area
- Project Scope
  - Replace approximately 1,200 feet of sewer with larger pipe 15” in diameter
- Benefits
  - Reduce basement backups

# Project Map

# Tentative Construction Schedule

- **Start:** Summer 2024
- **End:** Fall 2024

*Construction schedule is subject to change based on weather, utility conflicts, supply chain problems, and other unforeseen issues.*

# Previous Public Engagement

- June 2022 – Neighborhood Public Meeting

# What can residents expect?

- Trenches or “open-cut” excavation
- Construction during normal business hours
- Temporary access restrictions to residential properties
- Contractor will notify property owners before access restrictions

# How will it look when construction is finished?

- Trenches backfilled soon after pipe is installed
- Roadway and sidewalk restoration
- Private property restoration

## FAQs

- Will this work disrupt sewer or other utility services?
- Will construction affect access to my property?
- Will trees be removed as part of this project?
- Will emergency vehicles still have access to my property during construction?
