

July 2024

Dear Resident:

The Metropolitan St. Louis Sewer District (MSD) works to protect the public health and environment through effective wastewater and stormwater management. As part of MSD Project Clear, a long-term effort to reduce basement backups and sewer overflows, MSD is planning a construction project in your neighborhood: **Harlem Cityshed Mitigation Basins (Project #12942)**.

You're Invited to a Virtual Public Meeting

MSD Project Clear invites you to attend a Zoom virtual public meeting on Tuesday, August 6, 2024, at 6:00 p.m. to learn more about the project, meet the Construction team, and let us answer any questions you may have. We look forward to a good discussion, and we wanted to provide some tips for navigating this virtual meeting.

VIRTUAL PUBLIC MEETING

August 6, 2024

6:00 p.m.

Register at

msdprojectclear.org/12942mtg

Project Number 12942

First, you don't need to download anything or install an app or even have an internet connection to participate. You can log in from a desktop, handheld device, or even your landline phone.

The best way to participate in the meeting is through a desktop computer or tablet, as you'll be able to see our slides and presenters and type in questions during the meeting.

Registration is required to participate through a computer or tablet. To register, visit msdprojectclear.org/12942mtg. Once you register, you will be sent the meeting link and further instructions on how to attend. If you register with your email, you will also get a reminder sent to you the day before the meeting.

If dialing in by phone, call this number: **312-626-6799** and when prompted, enter the **webinar ID: 857 6254 9995** and **password: 214025**. Participants using the dial-in option will not be able to submit questions during the meeting, however, we invite you to send questions to us via our website at msdprojectclear.org/12942. We look forward to "seeing" you all on August 6! Following the meeting, you will receive a brief survey. If you could take a few minutes to complete the survey, your feedback will assist us in planning future public meetings.

A Clear Solution

MSD Project Clear planners and engineers have designed a new project called Harlem Cityshed Mitigation Basins (Project #12942). This project will help reduce basement backups and prevent sewer overflows by increasing the size of the sewer.

Additional information on the project can be found by visiting msdprojectclear.org/12942. We appreciate your cooperation as we work together to improve water quality and reduce basement backups in your neighborhood.

Sincerely,

Andy Day
MSD Project Manager
