Project Overview

- General Goal
 - Increase the capacity of the wastewater sewer in this area
 - Stabilize the creek bank
- Project Scope
 - Replace approximately 14,773 feet of wastewater pipe
 - Stabilize approximately 425 feet of natural creek bank
 - Increase pipe size to 8-36"
- Benefits
 - Fewer basement backups

Tentative Construction Schedule

- **Start:** Spring 2025
- **End:** Spring 2028

Construction schedule is subject to change based on weather, utility conflicts, supply chain problems, and other unforeseen issues.

Previous Public Engagement

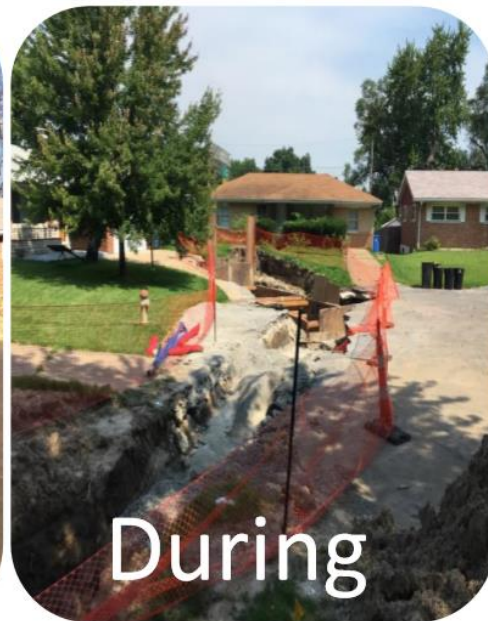

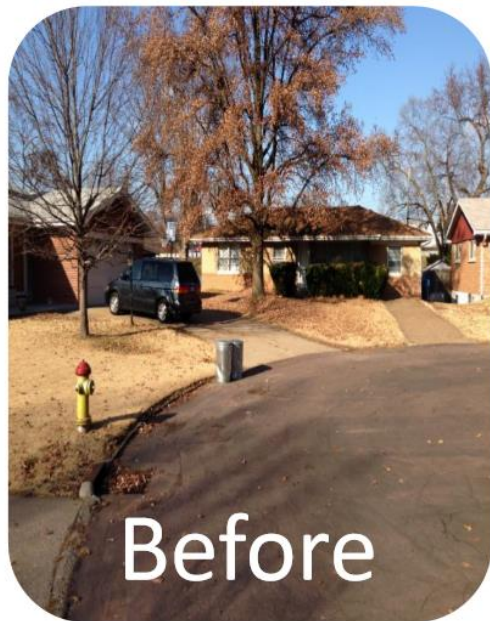

- May 2022 – Neighborhood Public Meeting

What can residents expect?

- Trenches or “open-cut” excavation
- Tunneling
- Construction noise during normal business hours
- Traffic control plan and access issues
 - Lane and road closures will temporarily affect traffic
 - Temporary access restrictions to residential properties
 - Contractor will notify property owners before access restrictions

How will it look when construction is finished?

- Trenches backfilled soon after pipe is installed
 - Roadway and sidewalk restoration
- Private property restoration per easement

Frequently Asked Questions

- Will this work disrupt sewer or other utility services?
- Will trees be removed as part of this project?
- Will construction affect access to my driveway?
- Will emergency vehicles have access to my property during construction?
