

Everyone lives in a flood zone

Did you know?

- » Flooding in the U.S. causes **\$5 billion** in damage every year
- » The average flood damage claim is nearly **\$60,000**
- » Many people don't even know they are **at risk**
- » Flood risk in our region range from **high-to-moderate-to-low**
- » 1 in 3 flood insurance claims come from **outside** high-risk flood zones
- » Most homeowners and renters insurance **does not cover** flood damage
- » Flooding can occur **even without** nearby creeks, streams, or rivers
- » Just a few inches of water can cause more than **\$10,000** in repairs

That's why MSD Project Clear's **Know Your Zone** initiative encourages homeowners, renters, and business owners to

- ✓ **Educate** yourself on your flood risk
- ✓ **Evaluate** the need for flood insurance
- ✓ **Decide** how best to protect your property
