

May 2025

Dear Resident:

The Metropolitan St. Louis Sewer District (MSD) works to protect the public health and environment through effective wastewater and stormwater management. As part of MSD Project Clear, a long-term effort to reduce basement backups and sewer overflows, MSD is planning a construction project in your neighborhood: **Lindbergh Sanitary Relief (Project #11943)**.

You're Invited to a Virtual Public Meeting

MSD Project Clear invites you to attend a Zoom virtual public meeting on Tuesday, June 12, 2025, at 6:00 p.m. to learn more about the project, meet the Construction team, and let us answer any questions you may have. We look forward to a good discussion, and we wanted to provide some tips for navigating this virtual meeting.

VIRTUAL PUBLIC MEETING

June 12, 2025

6:00 p.m.

Register at

msdprojectclear.org/11943mtg

Project Number 11943

First, you don't need to download anything or install an app or even have an internet connection to participate. You can log in from a desktop, handheld device, or even your landline phone.

The best way to participate in the meeting is through a desktop computer or tablet, as you'll be able to see our slides and presenters and type in questions during the meeting.

Registration is required to participate through a computer or tablet. To register, visit **msdprojectclear.org/11943mtg**. Once you register, you will be sent the meeting link and further instructions on how to attend. If you register with your email, you will also get a reminder sent to you the day before the meeting.

If dialing in by phone, call this number: **309-205-3325** and when prompted, enter the **webinar ID: 881 9119 9012** and **password: 015922**. Participants using the dial-in option will not be able to submit questions during the meeting, however, we invite you to send questions to us via our website at **msdprojectclear.org/11943**. We look forward to "seeing" you all on June 4! Following the meeting, you will receive a brief survey. If you could take a few minutes to complete the survey, your feedback will assist us in planning future public meetings.

A Clear Solution

MSD Project Clear planners and engineers have designed a new project called Lindbergh Sanitary Relief (Project #11943). This project will help reduce basement backups and prevent sewer overflows by increasing the size of the sewer.

Additional information on the project can be found by visiting **msdprojectclear.org/11943**. We appreciate your cooperation as we work together to improve water quality and reduce basement backups in your neighborhood.

Sincerely,

Gerald Allen
MSD Project Manager
