Project Overview

- General Goal

- Reduce overland flooding by improving stormwater drainage in this area

- Project Scope

- Install approximately 7,700 feet of new storm sewer pipe

- Benefits

- Reduced frequency and severity of home, yard and street flooding

The Metropolitan St. Louis Sewer District Harlem-Baden Relief Phase IV Storm Improvements (11797)

Tentative Construction Schedule

- **Start:** Winter 2025
- **End:** Fall 2027

Construction schedule is subject to change based on weather, utility conflicts, supply chain problems, and other unforeseen issues.

Previous Public Engagement

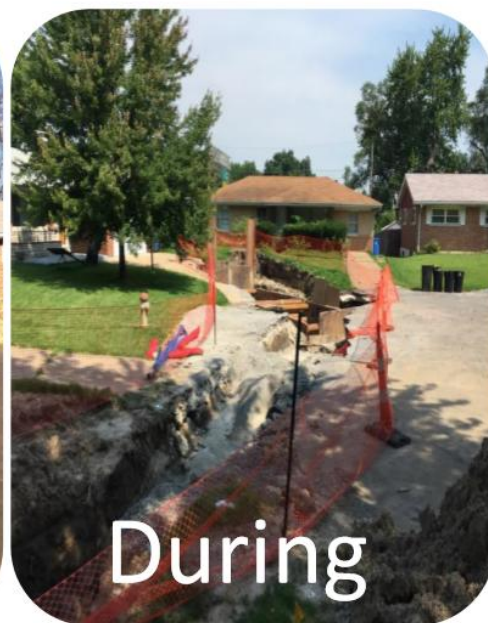

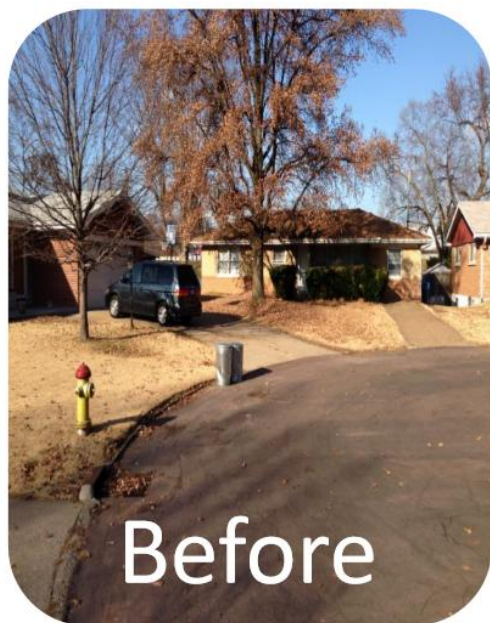

- October 2020 – Neighborhood Public Meeting

What can residents expect?

- Trenches or “open-cut” excavation
- Tunneling
- Construction noise during normal business hours
- Traffic control plan and access issues
 - Lane and road closures will temporarily affect traffic
 - Temporary access restrictions to residential properties
 - Contractor will notify property owners before access restrictions

How will it look when construction is finished?

- Trenches backfilled soon after pipe is installed
 - Roadway and sidewalk restoration
- Private property restoration per easement

Frequently Asked Questions

- Will this work disrupt sewer or other utility services?
- Will trees be removed as part of this project?
- Will construction affect access to my driveway?
- Will emergency vehicles have access to my property during construction?
